EMPLOYMENT SECTOR SPOTLIGHT: MANUFACTURING

October is National Manufacturing Month. Wisconsin's manufacturing industry is a large driver of the state's economy. This year, that State of Wisconsin is holding a Manufacturing Tour around the state, in which different business and topics will be highlighted. Topics include skilled worker shortage, career opportunities, policies, and the impact of the industry. The tour will highlight the impact that the manufacturing industry has on the economy in Wisconsin. The State is also doing a "Coolest Thing Made In Wisconsin" program. 16 manufacturers around the state will showcase their product, and in a "March Madness" style bracket, and will determine the Coolest Thing. If you are looking for a career that is fun and fast paced, the manufacturing sector may be the right fit for you. E3 Works can help you find a position or training program to prepare for your new career. Let us help you find a career that works for you!

PROGRAM SERVICE OF THE MONTH: OCCUPATIONAL SKILLS TRAINING

For anyone looking to begin or advance their career, E3 Works can help by paying the costs of training. Whether it is a short-term certification program or an Associates degree from a technical college, participants may be able to train for free. No one should have to make decisions about their future based on what they can afford!

E3 WORKS VIRTUAL INFORMATION SESSIONS:

Learn more about how the program works and how we can help you or your organization. These sessions are useful for individuals looking to find out more about the program, employers looking to become a worksite, or service provider organizations that wish to partner with E3 Works.
